PEOPLESOFT MAINTENANCE PACK INSTALLATION INSTRUCTIONS

This document provides instructions to do manual Application updates. The tasks in this document are in addition to the tasks in Change Assistant and must be completed in order to complete the installation of this Maintenance Pack.

Task Overview

The following table outlines the tasks in this document:

Task No.	Task Name
Task X-1	Applying Global Payroll Country Extensions After Altering Tables

Task X-1: Applying Global Payroll Country Extensions After Altering Tables

This task applies only if you have installed one or more Global Payroll Country Extensions on your database.

Important: Do not apply the fixes for Country Extension you do not have installed. If you only have the Global Payroll Core Engine, you **do not** need to complete this step. Apply the fixes below for each Country Extension you have installed. It is recommended that you run Update Statistics on GP_PKG_ELEMENTS and GP_PKG_PINMAP tables (or in case of using DB2 against Tablespace GPAPP) each time *after* country extension has been imported to the database.

This task discusses the following:

- Where to find Scripts/DAT files mentioned in this doc?
