The Programs (which include both the software and documentation) contain proprietary information; they are provided under a license agreement containing restrictions on use and disclosure and are also protected by copyright, patent, and other intellectual and industrial property laws. Reverse engineering, disassembly, or decompilation of the Programs, except to the extent required to obtain interoperability with other independently created software or as specified by law, is prohibited.

The information contained in this document is subject to change without notice. If you find any problems in the documentation, please report them to us in writing. This document is not warranted to be error-free. Except as may be expressly permitted in your license agreement for these Programs, no part of these Programs may be reproduced or transmitted in any form or by any means, electronic or mechanical, for any purpose.

If the Programs are delivered to the United States Government or anyone licensing or using the Programs on behalf of the United States Government, the following notice is applicable:

U.S. GOVERNMENT RIGHTS

Programs, software, databases, and related documentation and technical data delivered to U.S. Government customers are "commercial computer software" or "commercial technical data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the Programs, including documentation and technical data, shall be subject to the licensing restrictions set forth in the applicable Oracle license agreement, and, to the extent applicable, the additional rights set forth in FAR 52.227-19, Commercial Computer Software--Restricted Rights (June 1987). Oracle Corporation, 500 Oracle Parkway, Redwood City, CA 94065.

The Programs are not intended for use in any nuclear, aviation, mass transit, medical, or other inherently dangerous applications. It shall be the licensee's responsibility to take all appropriate fail-safe, backup, redundancy and other measures to ensure the safe use of such applications if the Programs are used for such purposes, and we disclaim liability for any damages caused by such use of the Programs.

The Programs may provide links to Web sites and access to content, products, and services from third parties. Oracle is not responsible for the availability of, or any content provided on, third-party Web sites. You bear all risks associated with the use of such content. If you choose to purchase any products or services from a third party, the relationship is directly between you and the third party. Oracle is not responsible for: (a) the quality of third-party products or services; or (b) fulfilling any of the terms of the agreement with the third party, including delivery of products or services and warranty obligations related to purchased products or services. Oracle is not responsible for any loss or damage of any sort that you may incur from dealing with any third party.

PeopleSoft Campus Community -- SEVIS Documentation Updates for CS 9.0 Bundle #5 and CS 8.9 Bundle #12

Note. This document is an update to the *PeopleSoft Enterprise Campus Community Fundamentals 9.0 PeopleBook*, and to the *PeopleSoft Enterprise Campus Community Fundamentals 8.9 PeopleBook*. It describes Product Update ID 687643 for CS 9.0 Bundle #5 and Product Update ID 687640 for CS 8.9 Bundle #12, both of which were posted to Customer Connection in November 2007. Use this document in conjunction with your PeopleBooks to maintain a complete set of documentation.

This document describes the new SEVIS CIP codes validation process for F/M and J visa events that is available when running the SEVIS Alerts process.

The new **Valid SEVIS CIP** Code field is added to the CIP Code Table page, and the new **Validate SEVIS CIP Code** field is added to the SEVIS Alerts run control pages (Process SEVIS Alerts – F/M page and Process SEVIS Alerts – J page).

This document discusses changes in how to:

- Modify CIP and HEGIS Codes
- Run the SEVIS Alerts Process

PeopleSoft Enterprise Campus Community Fundamentals 8.9 PeopleBook, “Managing PeopleSoft Patriot Act SEVIS Solution Visa Processing”

Modifying CIP and HEGIS Codes

The new **Valid SEVIS CIP** Code field is added to the CIP Code Table page (PeopleSoft Enterprise Campus Solutions 9.0 Application Fundamentals PeopleBook, “Designing Your Academic Structure,” Modifying CIP and HEGIS Codes).

To set up CIP and HEGIS codes, use the CIP Code Table component (CIP_CODE_TABLE) and the HEGIS Code Table component (HEGIS_CODE_TABLE). Use the SSR_CIP_CODE_TABLE and SSR_HEGIS_CODE_TABLE component interfaces to load the data into the tables for these component interfaces.

CIP and HEGIS codes are delivered with the system. You can modify descriptions of the codes and add new codes through the CIP Code Table page and the HEGIS Code Table page. This section discusses how to modify CIP and HEGIS codes.

Pages Used to Modify CIP and HEGIS Codes

| Page Name | Object Name | Navigation | Usage |
|------------------|------------------|---|---|
| CIP Code Table | CIP_CODE_TABLE | Set Up SACR, Foundation Tables, Reporting Codes, CIP Code Table | Modify descriptions of the CIP codes shipped with Campus Solutions. |
| HEGIS Code Table | HEGIS_CODE_TABLE | Set Up SACR, Foundation Tables, Reporting Codes, HEGIS Code Table | Modify descriptions of the HEGIS codes shipped with Campus Solutions. |

Modifying CIP Codes

Access the CIP Code Table page.

CIP Code Table

CIP Code: 01.0901

[CIP Code Table page](#)

Alternative CIP Code (alternative classification of instructional programs code) Some states derive their own coding schemes from the CIP code. If applicable, enter the alternative CIP code of the state.

Valid SEVIS CIP Code Select **Yes** to indicate that the code is the valid SEVIS CIP code for the area of study.

Select **No** if either the code is not the valid SEVIS CIP code or you are unsure if it is the valid SEVIS CIP code.

When **Valid SEVIS CIP Code** is set to **Yes** for a code, the Validate SEVIS CIP Code process available from within the SEVIS Alerts process, can compare the CIP code in an event to the valid code and if the codes do not match, the process can generate and display an error message in the alerts.

When the **Valid SEVIS CIP Code** is set to **No** for a code, the validation process generates an error message that appears in the alerts.

Running the SEVIS Alerts Process

A new **Validate SEVIS CIP Code** field is added to the SEVIS Alerts run control pages (Process SEVIS Alerts – F/M page and Process SEVIS Alerts – J page).

This section discusses how to:

- Run the SEVIS Alerts process for F and M visas.
- Run the SEVIS Alerts process for J visas.

Pages Used to Run the SEVIS Alerts Process

| Page Name | Object Name | Navigation | Usage |
|---|-----------------|--|---------------------------------------|
| Process SEVIS Alerts - F/M, Process SEVIS Alerts - J | RUNCTL_CCSEVCMP | <ul style="list-style-type: none"> • Campus Community, SEVIS, F/M Alerts, Process SEVIS Alerts - F/M • Campus Community, SEVIS, J Alerts, Process SEVIS Alerts - J | Assign communications to individuals. |

Running the SEVIS Alerts Process for F and M Visas

Access the Process SEVIS Alerts - F/M page.

Process SEVIS Alerts - F/M

Run Control ID: KAY [Report Manager](#) [Process Monitor](#)

SEVIS School Code: SEVIS Batch Test School

Validate SEVIS CIP Code: Yes No

Trigger Complete Program After

F Students: days

M Students: days

| Academic Info Selection | | | | | |
|-------------------------|--|-----------|--|------------|--|
| Career | *Current Term | | Next Term | | *As of Date |
| GRAD | <input type="text" value="0504"/> <input type="button" value="Q"/> | Cur Sevis | <input type="text" value="0514"/> <input type="button" value="Q"/> | Next Sevis | <input type="text" value="09/15/2007"/> <input type="button" value="Q"/> |

Process SEVIS Alerts – F/M page

Replace the field descriptions for the top of the page with the following descriptions. All other field descriptions in the current PeopleBook remain the same.

SEVIS School Code Enter the SEVIS school code for the process that you want to run.

Validate SEVIS CIP Code Select **Yes** for the alerts process to compare CIP codes against the corresponding CIP Code Table page (*Setup SACR, Foundation Tables, Reporting Codes, CIP Code Table*). When the **Valid SEVIS CIP Code** field on the CIP Code Table page is set to **Yes**, the process compares the code in the event against the valid code on the table. If the codes do not match, or if no valid code is available for comparing (the **Valid SEVIS CIP Code** on the CIP Code Table page is set to **No**), the process generates an error message that appears in the alerts.

The validation process checks for valid CIP codes for these F/M events:

- Create Student, Education Level – Add
- Education Level – Cancel
- Program – Edit

Select **No** to disable the automatic CIP code validation process. When the validation process is disabled, no validation notices appear in the alerts.

| UGRD | <input type="text" value="0504"/> <input type="button" value="🔍"/> | Cur Sevis | <input type="text" value="09/03/2007"/> <input type="button" value="📅"/> |

Process SEVIS Alerts – J page

Replace the field descriptions for the top of the page with the following descriptions. All other field descriptions in the current PeopleBook remain the same.

SEVIS Program Number Enter the SEVIS program number for the process you want to run.

Validate SEVIS CIP Code Select **Yes** for the alerts process to compare CIP codes against the corresponding CIP Code Table page (*Setup SACR, Foundation Tables, Reporting Codes, CIP Code Table*). When the **Valid SEVIS CIP Code** field on the CIP Code Table page is set to **Yes**, the process compares the code in the event against the valid code on the table. If the codes do not match, or if no valid code is available for comparing (the **Valid SEVIS CIP Code** on the CIP Code Table page is set to **No**), the process generates an error message that appears in the alerts.

The validation process checks for valid CIP codes for these J events:

- Create Exchange Visitor
- Program – Edit Subject

Select **No** to disable the automatic CIP code validation process. When the validation process is disabled, no validation notices appear in the alerts.
